A medical student gets more than she bargained for in this new medical thriller released by Dog Ear Publishing.

VIRGINIA BEACH, Va. – February 23, 2015 -- From the moment she lays eyes on the burn victim – a young firefighter named Stan – third-year medical student Lucy Irving feels an intense connection. The discovery of arson as the culprit resurrects memories of a devastating fire in her own life, notes this new book by Kate McGaughey. Determined to find answers, Lucy digs too deep and becomes a target – placing her in the crosshairs of a complex criminal contingent. Enter a handsome FBI agent assigned to investigate links to an international trail of crime. An undeniable connection develops that only serves to further complicate the search for answers.

Set in the austere halls of University Hospital in Chapel Hill, N.C., intrigue abounds when a physician dedicated to top-secret medical research – although utilizing questionable methods – finds Lucy to be the perfect protégé. Searching for her place in the complicated maze of the medical hierarchy, Lucy struggles with the delicate balance between her life-long dream to doctor and her own family drama.

Fast paced and laced with intrigue, “Feel the Heat” is a suspenseful tale of deception that races to the unforgettable conclusion.
